12K FRAMES

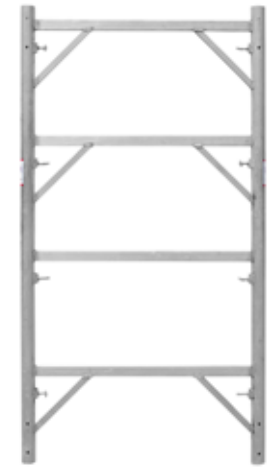

LIGHTWEIGHT & HIGH STRENGTH

4 X 4 FRAME
(1.22 m x 1.22m)
22.0 lb / 10.0 kg

4 X 6 FRAME
(1.22 m x 1.83 m)
32.0 lb / 14.5 kg

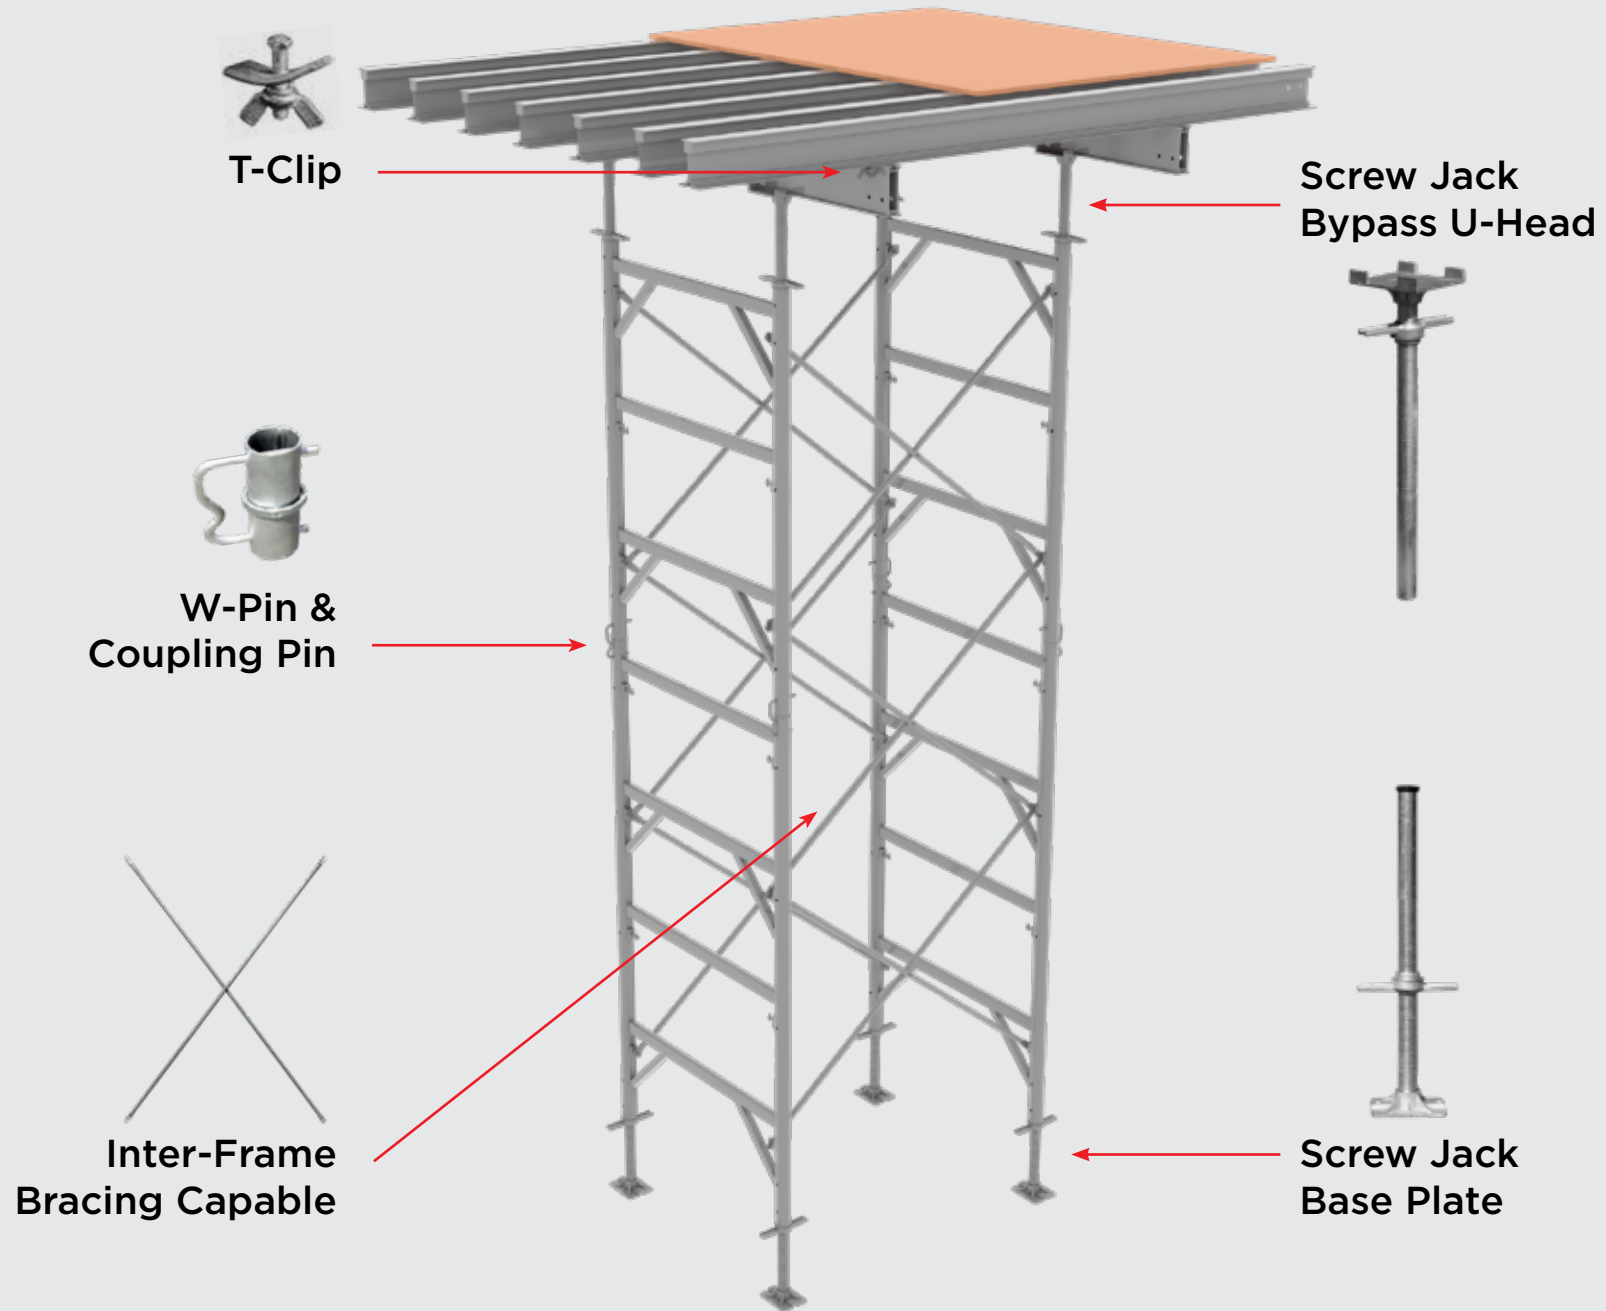

4 X 8 FRAME
(1.22 m x 2.44 m)
48.9 lb / 22.2 kg

An aluminum shoring system intended to carry heavy loads and/or tall decks.

- » **Lightweight and Durable**
A simple aluminum shoring system capable of carrying heavy loads.
- » **Efficient Installation**
Increased productivity and decreased physical exertion of construction workers
- » **Simple Stacking Solutions**
A standard 8' frame balances capacity, weight, durability and handling for high work conditions while using fewer pieces.
- » **High Capacity**
20% more than 10K frames
